THE PEOPLE OF THE RAINFOREST

Only 10 years old, Kupeng has learnt the ways of the nomadic Batek tribe. Adept with the blowpipe, small game are his prey.

The natives of the rainforest are shy, gentle folk. Their philosophy: "take little from nature that nature alone cannot heal".

130 Million Years Of Nature & Adventure

The world's oldest tropical rainforest beckons in Malaysia. Preserved to stay the way nature intended it to be for you to explore and enjoy. A haven for hundreds of species of wildlife, exotic birds, fish and plants.

Covering 4,343 sq km of virgin jungle, the park offers an undisturbed diversity of habitats and plant communities. Spot the Fishing Eagle or Gibbons as you travel along the meandering highways of this rich tropical rainforest. Get drenched as you negotiate seven sets of rapids. Take in panoramic views of a time-honoured civilisation. Verdant valleys. Evergreen hills.

Taman Negara holds the promise of an exhilarating experience.

Wake Up To Nature's Symphony

Imagine being greeted by the most rare song-birds in the world. About 350 kinds are found in this jungle. With exotic names like Crested Fireback Pheasant, Malayan Pied Hornbill, Broadbill, Masked Finfoot, Bronzed Drongo and the Blue-Throated Bee-Eater, to name a few. And in the still of the night together with Cicadas and a host of insects they perform an all-night concert like you've never heard before!

Explore A New Frontier

Let your spirit of adventure take you to new heights: the canopy, which is the top layer of vegetation in a forest. Feast your eyes on the myriad of plant and animal species that make their home here, including the birds. All you have to do is venture onto the Park's canopy walkway, installed at elevations above 25 metres and stretching over 400 metres – the world's longest. Truly a highlight not to be missed.

The Angler's Challenge

Have you got what it takes to tackle 20 pounds of fighting spirit and amazing speed? The Kelah. It is estimated there are as many as 300 species of fish in the Malaysian rivers. And as you weave through the jungle's meandering rivers you'll see Kingfishers, Hornbills, Otters, Monitor Lizards and more.

TAKE A WALK ON THE WILD SIDE

Take a journey back into time through dense tropical forest. It is estimated more than 100 species of plant life are found in every single acre of the jungle. For the more adventurous, climb up Gunung Tahan, the highest peak in Peninsular Malaysia. Its magnificent vistas haven't changed since the Ice Ages.

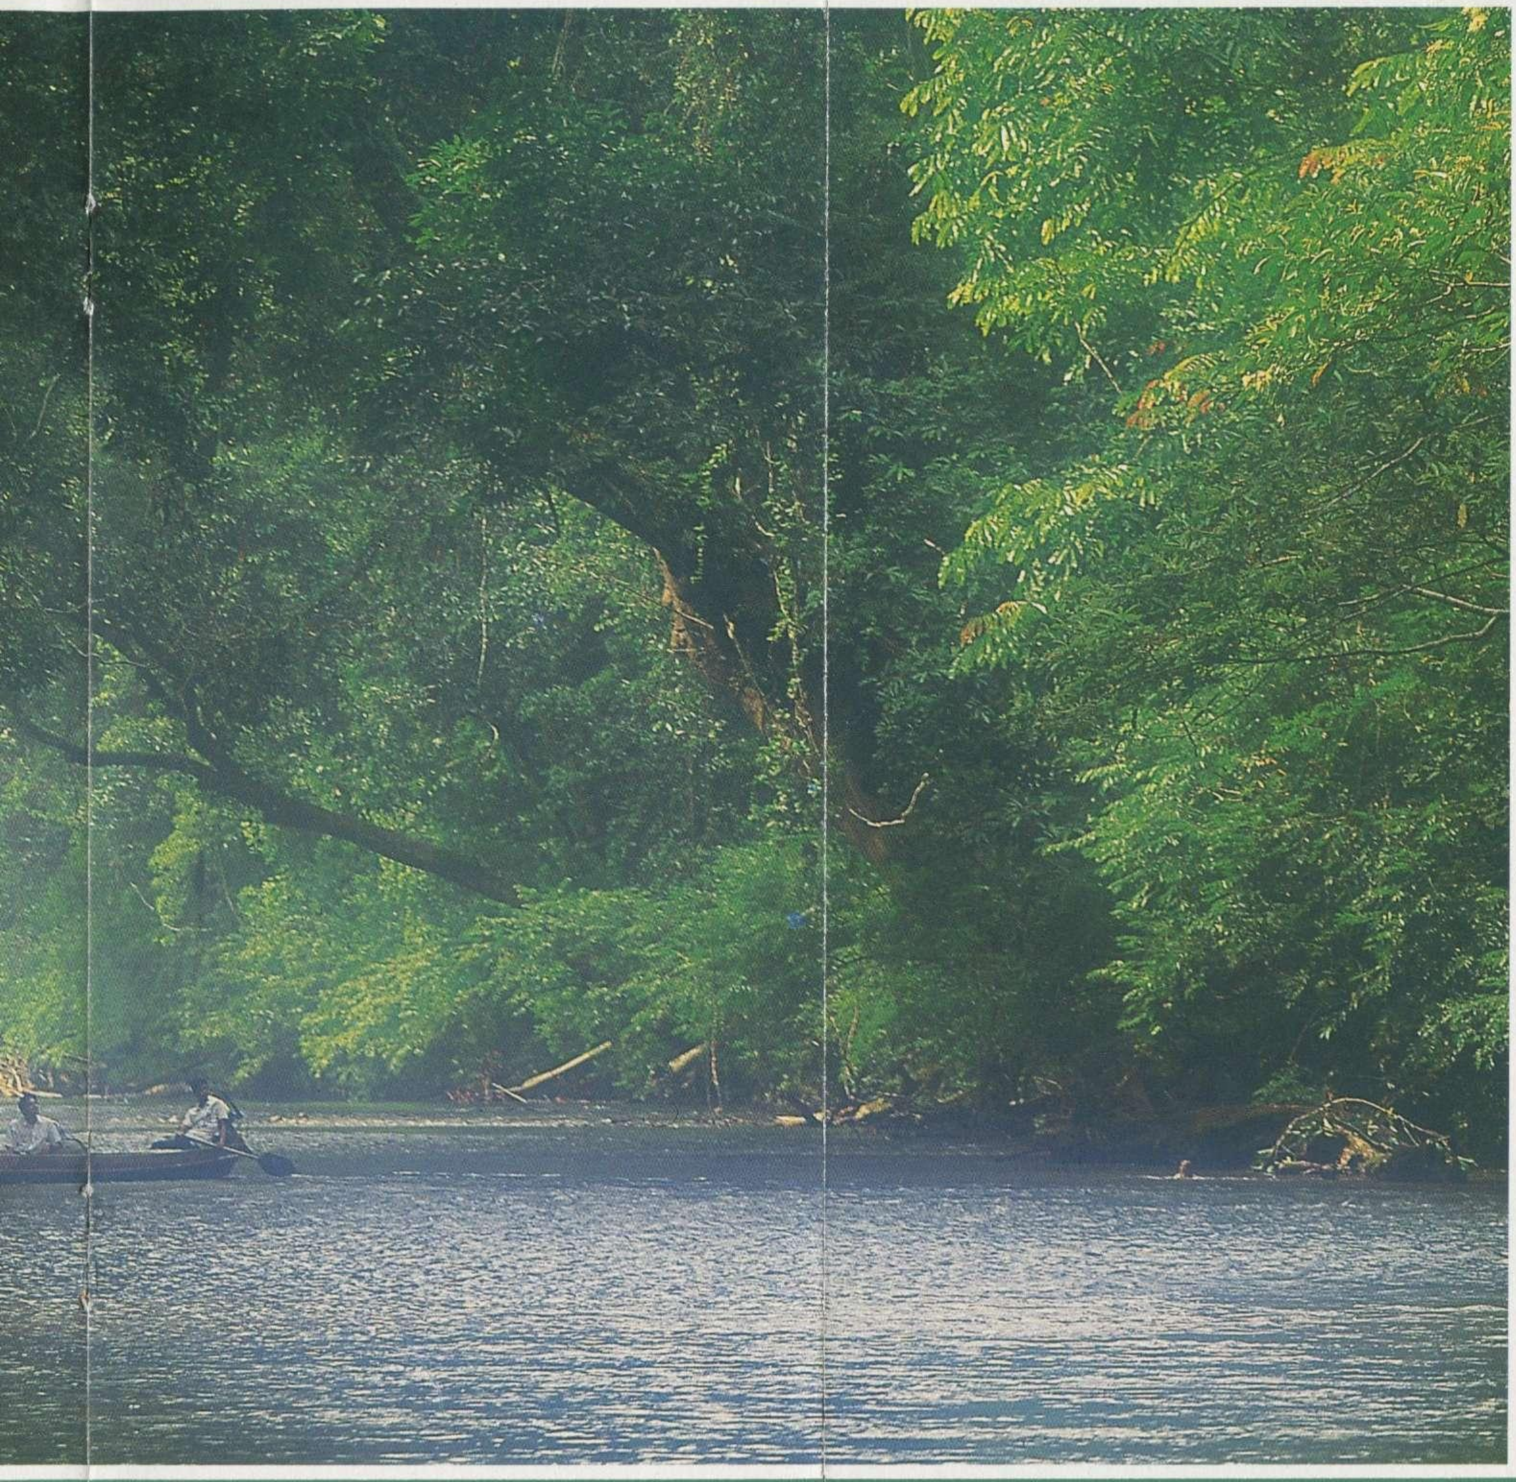

Rich forest and riverine vegetation dominate the lowlands while the altitudes are graced with oaks and palm flora. Spot some of the rarest orchids in the world. The lowland areas are home to diverse wildlife. Spend nights in a jungle hide (tree-house) looking out for a Tapir, Bear or Elephant lapping it up at the salt-lick below.

TAHAN RIVER

Taman Negara Resort

Within this great expanse of nature, lies the Taman Negara Resort, overlooking the Tembeling and Tahan rivers. Endless opportunities await the adventurer. The resort offers modern facilities and services including a medical clinic and a mini-market.

Quality Accommodation.

Malaysian styled wooden chalets and bungalows offer home comforts. Ideal for families on holiday, some are even designed with a kitchenette. One could also stay in a one-room chalet without air-conditioning.

Group travellers might prefer dormitory living. This features double-deck bunkers with mosquito screens.

For a night under the stars, within lies a camp-site. Camping equipment can be hired at the resort.

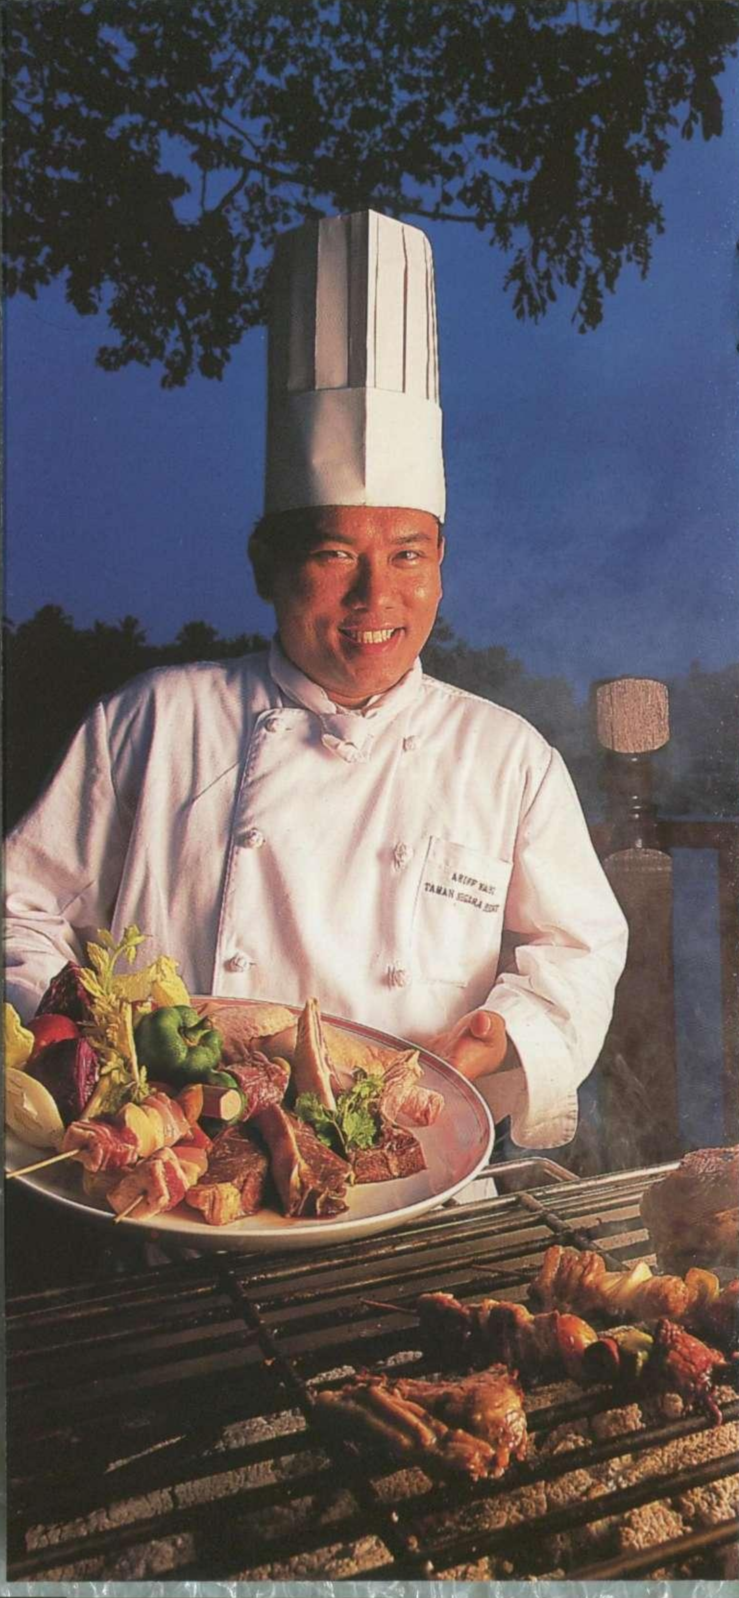

Comforts in the wilderness

Ideal for groups

For the more adventurous

AN ETHNIC TASTE DISCOVERY

After taking in the wonders of the forest, tempt yourself with Malaysia's culinary creations. A feast for the discerning appetite.

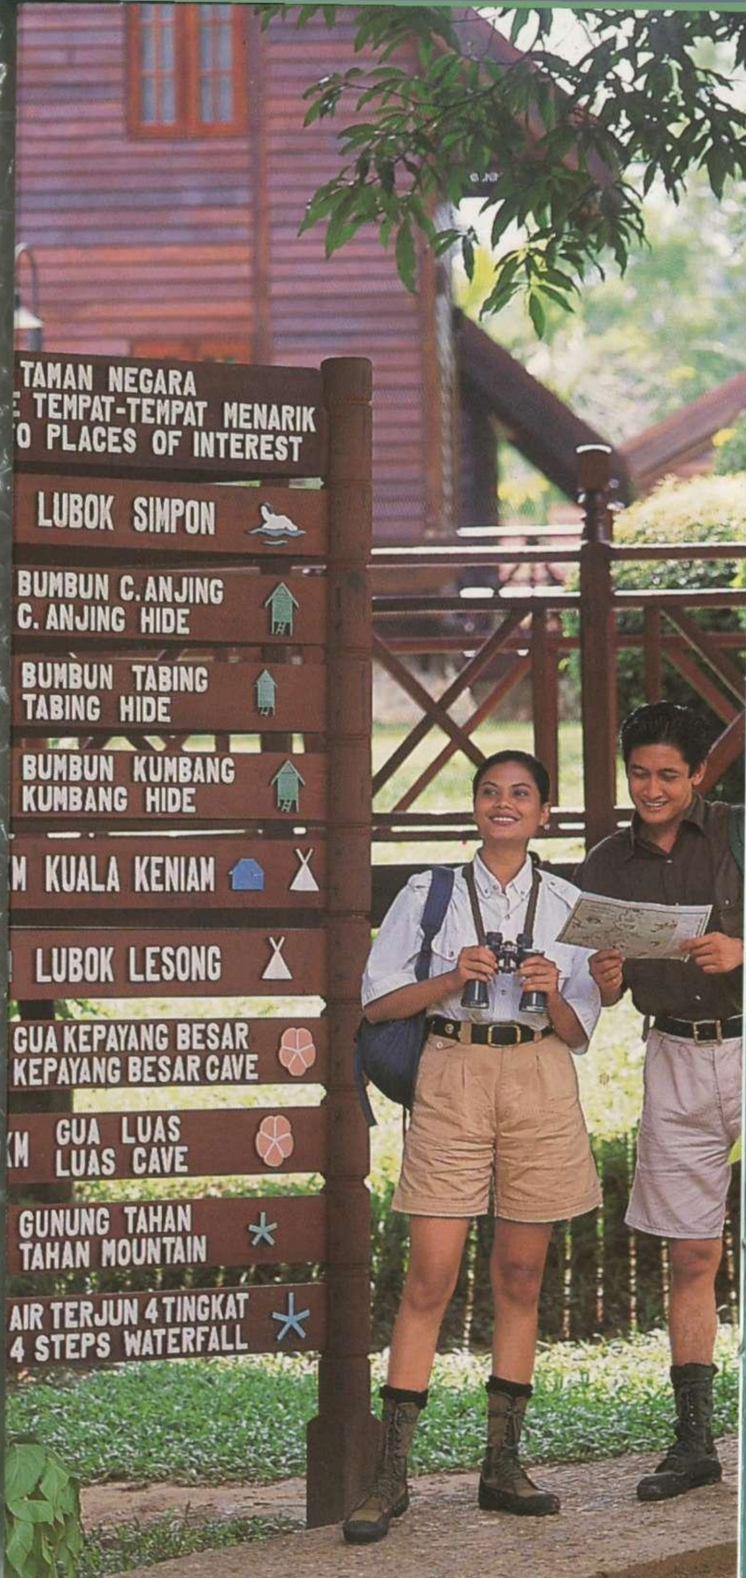

UNWIND...

Relax, sipping your favourite cocktail while recollecting the day's experiences, by yourself or with holiday acquaintances, at the Tembeling Lounge. The Tahan

Restaurant and Teresek Cafeteria serve Malaysian delicacies and continental favourites.

MEETING ADVENTURE

Besides meetings with nature, Taman Negara Resort is equally adept in catering to functions

of a more ... indoor nature. The Bayan Nuri Hall is equipped with up-to-date facilities and the capacity to accommodate up to 300 persons. Be it a conference, workshop or seminar, here's the location that offers you that point of difference.

TRENGGAN LODGE

Deeper in the heart of Taman Negara lies Trenggan Lodge, at Kuala Trenggan. A quiet retreat enveloped by nothing but the green highrises of nature. To get there, you have to travel upstream on Sungai Tembeling where you will encounter a series of pulsating rapids and countless creatures such as otters. Once there, you will be greeted by a world where total tranquility reigns. And charming chalets which reflect the rustic ambience.

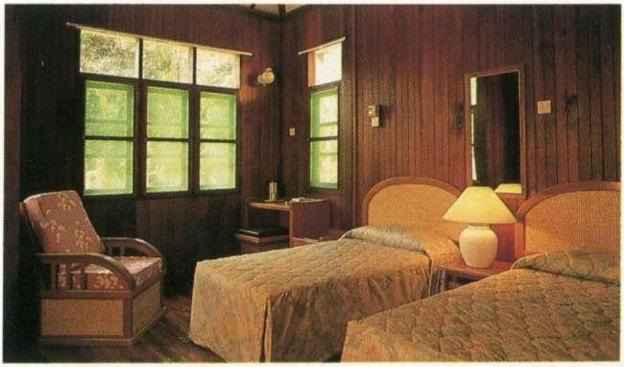

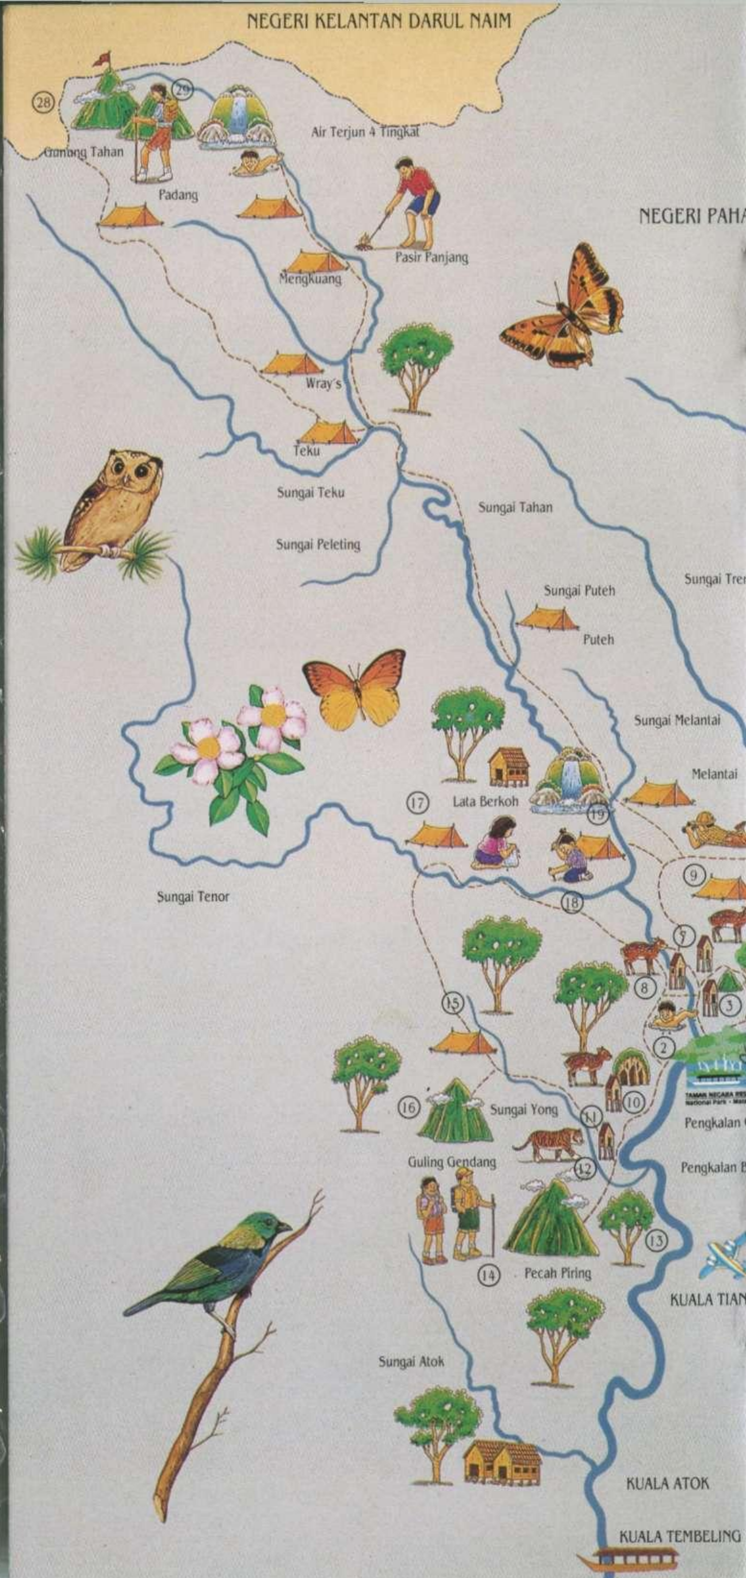

KENIAM LODGE

The avid angler and bird-watching enthusiast will find Keniam their haven. Located further up from Kuala Trenggan, it is the abode for a

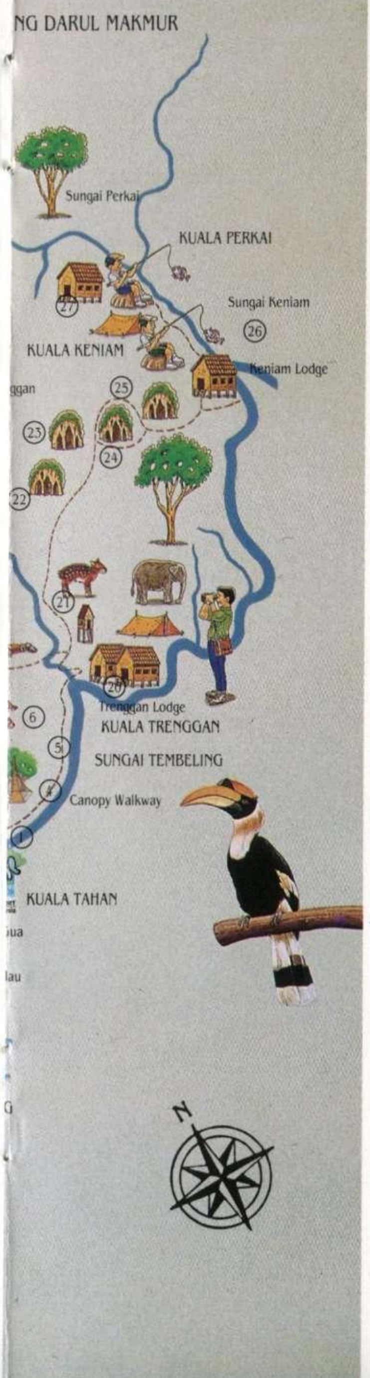

kaleidoscopic variety of fish and birds. If that's not enough to keep you occupied, explore its numerous caves such as Gua Daun Menari (Cave of the Dancing Leaves) and be awed by their mystifying rock formations and unique species of wildlife. Like Trenggan Lodge, all your creature comforts are well taken care of here. You'll find chalets, a restaurant and even a camping site with all the necessities.
